### A Few Lines From the "Show Me" State.

GUILFORD, Mo., June 6.—Enclosed find the price of another year's subscription as I can not entertain the idea of doing without my old home paper. It is now within a few days of a year since I was in Stanford. While I hadn't the pleasure of meeting you at that time, I did meet quite a number of old acquaintances who were my schoolmates nearly half a century ago, among whom were Dr. J. F. and Cap. Peyton, the two Mrs. Bettie McKinneys, Mrs. Fannie Dunn and others. I also met two "school marm's," Miss Dunn and Miss McKinney—by the way, distant relatives of the writer—both single and neither of them a widow. But mind you now, they were not acquaintances or schoolmates of mine a half century ago. Their mothers were instead. Our town board here in Guilford having created a law taxing all bachelors so much annually, between the ages of 25 and 45, I intimated to the girls that a trip West would be nice, interesting and I thought in all probability, profitable, but I was unable to induce them to make the trip. I presume they were mortgaged and you know it is unlawful to remove mortgaged property from the State.

We often hear one say: "I never saw it so hot or so cold," but we think they have; they have only forgotten. But as John Skinner says, let me tell you something, and I don't think I have forgotten either: I have never seen a March, April or May just similar to the three months passed. March, at times, was as hot as summer, grass was as good as it generally is the first half of May. The season was no further advanced in the growth of vegetation the first of May than it was the last of March. It has been cool all through May, with occasional hot days, and April was unusually cold, so much so that it killed all fruit, such as peaches, pears, apples, cherries, and in fact almost everything except blackberries, strawberries and grapes. We have had no very heavy rains here this Spring, however, we have not suffered for moisture. I never saw ground in better condition to work and prospects are favorable for a good crop of all the grains. Meadows will be light on account of the absence of good rains in April and May.

I saw an account of the death of John Sherron in your paper some time ago. I think it stated he died of consumption. I thought it strange if it was the John Sherron I used to know, for he was an unusually stout, hearty, robust boy, was raised by Isaac Gibson on Hanging Fork, some two miles below Hustonville.

Well, I guess these things don't interest you; however, they remind me very vividly of long ago. I must quit. Yours respectfully,

C. D. HOCKER.

### Remarkable Rescue

That truth is stranger than fiction, has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed cure for coughs and colds. 50c. and \$1. at Penny's drug store. Trial bottle free.

"Pug dogs in too many cases have usurped the place which properly belongs to the baby," said a Cleveland, O., preacher in his Sunday sermon. Just so. And there is nothing so disgusting on earth as to see a woman waste her sweetness on a dog, when so many children are starving for caresses. There is something radically wrong in a woman who prefers dogs to children. Most generally she is a pervert.—Frankfort Journal.

### The Magic No. 3.

Number three is a wonderful mascot for Geo. H. Parris, of Cedar Grove, Me., according to a letter which reads: "After suffering much with liver and kidney trouble, and becoming greatly discouraged by the failure to find relief, I tried Electric Bitters, and as a result I am a well man to-day. The first bottle relieved and three bottles completed the cure." Guaranteed best on earth for stomach, liver and kidney troubles, by Penny, druggist. 50c.

There is a well in Livingston county which is attracting much attention, for from its depths can be drawn three separate and distinct fluids—limestone, sulphur water and oil. The fluids can be secured in the order named and a bucket lowered into either level will be filled accordingly.

### Colic and Diarrhoea.

Pains in the stomach, colic and diarrhoea are quickly relieved by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by all druggists.

"He's a man of liberal views."  
"As to how?"  
"Distributes them freely."

The Second regiment of Kentucky State Guards, of which Col. J. Embury Allen is commander, has voted to accept the offer of the State government to go to Jamestown on half-pay, and the probabilities seem to be that all of the State militia will vote likewise and that the annual encampment will be held at the exposition city.

A severe wind and hailstorm passed over Northeastern Kentucky doing thousands of dollars damage in Boyd and other counties. Near Ashland a farmer was killed by a falling tree and the watchman on a steamer, which was blown from her moorings at Catlettsburg, is reported to have been drowned. The courthouse at Catlettsburg was damaged and many houses unroofed.

### Tetter Cured.

A lady customer of ours had suffered with tetter for two or three years. It got so bad on her hands that she could not attend to her household duties. One box of Chamberlain's Salve cured her. Chamberlain's medicines give splendid satisfaction in this community.—M. H. RODNEY & Co., Almond, Ala. Chamberlain's medicines are for sale by all druggists.

The City Committee met and canvassed the vote in the primary of May 25th and it resulted in a tie vote each candidate—W. W. Tompkins and L. M. Gray—receiving 96 votes. It is believed that the matter will be sent to the City Council by the City Committee just as it is and that body choose which one it wants to.—Danville News.

Judgement of the Pulaski Circuit Court was affirmed by higher court in a local option case of Sylvester Newton and others against J. C. Ogden and others. Judge Carroll handed down the opinion of the court. In the city of Somerset a local option election was held on December 6, 1907. The general election was held in the county on November 6 preceding, and the local option election was contested on the ground that Section 2355 of the statutes had been violated in that the election of December had been held within 30 days of a general political election. If the day on which the regular election was held is to be included in the computation of time, the local option election was not held within the 30 days; if the date of the regular election is excluded, it was within the time prohibited by the statute.
